SARAH AL AYASS

AI Engineer / Data Scientist | Seeking a Work-Study (Alternance) Position for a Master's Degree

Available from July 2027 (or September 2027) · 2-year contract · Master's in AI & Data Science, Aivancity

sarahayass1012@gmail.com | +33 6 45 43 21 51 | Paris, France | linkedin.com/in/sarah-al-ayass

PROFILE

Artificial Intelligence student at Aivancity with hands-on experience building full-stack, AI-powered applications — from on-premise LLM assistants and RAG systems to data dashboards. I combine analytical rigour with creativity to turn complex problems into usable products, and I work comfortably in Agile teams across French, English and Arabic-speaking environments.

EXPERIENCE & PROJECTS

AI & Full-Stack Developer Intern — **Aug 2026**

Touch (MTC Lebanon) — IT Department, Beirut

- Built **MTC Portal**, an internal web portal for operations teams (React PWA, FastAPI, PostgreSQL); delivered the core modules and documented the project for IT handoff.
- Developed an **on-premise AI assistant**, fully network-contained to meet strict telecom data-privacy requirements.
- Worked in Agile sprints; diagnosed and fixed deployment and PWA issues.
- Designed and delivered a **generative AI training for 20+ IT staff** to help colleagues use AI tools in their daily work.

Platform Development Project — LyrFlow — **May 2026 – Jul 2026**

Alttrust

- Contributed to building **LyrFlow**, a karaoke and language-learning platform based on time-synced lyrics, and its core features.
- Worked on **UI/UX design**, project organisation and user-experience optimisation.
- Debugged, tested and improved application **performance and functionality** (Supabase, Railway).

SST SchoolRoute — **2026 – present**

Personal project — web & mobile (in progress)

- School-transport platform with **role-based dashboards** (parents, drivers, administrators), GPS tracking, messaging and cashless payments; produced the pitch deck and an interactive product demo.

AI Compliance Platform — Project Developer — **Sep 2025 – Dec 2025**

Aivancity × Pangea Summit

- Designed a **RAG architecture** to audit generated content for legal compliance (GDPR, AI Act, CCPA).
- Integrated the **BGE-M3** embedding model for precise semantic search across legal texts.
- Built a **Django** interface to visualise infractions and explain risk scores to non-technical users.

SolarLeaf — **Aug 2025**

Personal project

- Concept for an **AI-driven robot** for real-time environmental monitoring.

AI Advertising Dashboard Developer — **Jan 2025 – Apr 2025**

Aivancity × Égérine

- Developed a data dashboard in **Python and Power BI** to optimise advertising spend, improving ROI visibility and supporting budget decisions.

Sports Analytics — **Sep 2024 – Dec 2024**

Aivancity

- Analysed European league player performance (**Python, Power BI, Excel**) to support data-driven recruitment.

Teaching Assistant — **Aug 2024**

Centre Culturel Français

- Helped children learn French through lesson preparation and individually tailored guidance.

EDUCATION

Aivancity School of AI & Data for Business & Society — Paris-Villejuif — **2027 – 2029**

Master's in Artificial Intelligence & Data Science (Master's-level degree) — work-study

Aivancity School of AI & Data for Business & Society — Paris-Villejuif — **2024 – 2027**

Bachelor in Artificial Intelligence & Data

Collège Carmel Saint-Joseph — Lebanon — **2021 – 2024**

French Baccalaureate

SKILLS

AI & Data	Machine Learning, LLMs, RAG, Semantic Search, Data Cleaning, Analysis & Visualisation
Development	Python, SQL, JavaScript, React, FastAPI, Django, REST APIs
Tools	PostgreSQL, Supabase, ChromaDB, Qdrant, Ollama, Linux, Power BI, Excel, Power Platform, Git/GitHub
Governance & Methods	GDPR, EU AI Act, CCPA, Agile/Scrum, technical documentation
Certifications	Microsoft Power Platform Fundamentals (PL-900)
Languages	Arabic (native) · French (fluent) · English (fluent)
